November 7, 2022, LEHI, Utah — [CloudSource+](#), the newest content solution for open access materials from [SirsiDynix](#), has integrated with [Get It Now](#) from [CCC](#) (Copyright Clearance Center) to provide immediate purchase and delivery of full-text articles to unsubscribed journals. Get It Now is used by hundreds of academic libraries around the world to help expand their virtual collections. With Get It Now, CloudSource+ libraries can:

- Immediately fulfill patron requests for full-text articles—24 hours a day, 7 days a week—with or without a mediator.
- Expand the library's virtual collection with articles from more than 19,000 journals and tens of millions of articles.
- Improve the patron experience by delivering articles outside of subscriptions.
- Stay within budget with advanced data and reporting.

CloudSource+ is dedicated to providing an exceptional experience for both library staff and patrons as they increase access to research and scholarly content. With fully integrated Get It Now functionality, libraries can expand their offering without increasing budget.

"We are excited to expand our longstanding partnership with SirsiDynix," said Emily Sheahan, Vice President & Managing Director, CCC. "The integration of Get It Now and CloudSource+ provides academic library patrons with unmatched content discovery and immediate access in support of scholarly research."

"This partnership with CCC is very important," said Rick Branham, VP of Pre-Sales Solutions, Academic, and Content Solutions at SirsiDynix. "Academic libraries are in a difficult position today as they struggle to manage strategic initiatives while providing premium service to patrons. CCC's Get It Now provides libraries with a great solution for unsubscribed journals, knowing that if a patron needs access to an article from an unsubscribed journal, they can get it right away."
