*Employer Recognition Program Recognizes Organizations Across the Country
That Have Built Exceptional Workplace Cultures*

March 1, 2022 – Danvers, Mass. – [CCC](#), a leader in advancing copyright, accelerating knowledge, and powering innovation, has earned a 2022 [Top Workplaces USA](#) national award from [Energage](#), a technology company that empowers workplace excellence. This employer recognition program recognizes organizations across the country that have built exceptional workplace cultures.

The Top Workplaces USA national award is open to organizations with 150 or more U.S. employees. Nominated companies are evaluated based on results from Energage’s anonymous, research-based employee engagement survey that is powered by findings from 15 years of research and data from more than 23 million employees across 70,000 organizations.

“The companies recognized as Top Workplaces have high performance, people-first cultures,” said Greg Barnett, Ph.D., Chief People Scientist, Energage. “These companies are successful because they put their people at the center of all they do. By prioritizing the employee experience, they are known to out-produce, out-innovate, and out-deliver the competition.”
